SKILLS & TOOLS

- Html | Css | JavaScript | Dom | React | Node js
- Bootstrap | Tailwind | Flowbite | Daisy UI | Material UI | React Router Dom | Context API | TanStack Query | Express | JWT | MongoDB | Firebase Authentication | Git | Figma to Webpage | Canva

FEATURED PROJECTS

Pathsala EdTech Platform (UI / UX Focused)

React

React Router Dom

Firebase

Express

Tailwind

Pathsala is an Online Learning Platform for Ssc and Hsc level students. Major Platform Features include syllabus-based tutorials, board paper solving, daily lessons, and so on. Students can choose their tutorial, view details, and buy with one-click.

More Details at [🔗 https://pathshala-official.web.app](https://pathshala-official.web.app)

Major Challenges and Achieved Goals

- The user interface is the backbone of this project. Since my target audience will be mostly 16 to 20 years old students, I have maintained simplicity, easy-to-use, and a friendly color scheme
- To establish One-Click login/signup I have used the firebase authentication system. Through this students will be able to create or login into their accounts without the extra hustle
- **Most Challenging ERROR:** I have used vite for the first time in this project. In vite importing data from the "env" file is different from the traditional one. To solve this bug I had to use "import.meta.env" instead of "process.env". All solved bugs [🐙 taiyebnirjhor/Life_and_error](#)

Tastebuds Food Review (MERN Stack)

React

Firebase

Mongodb

Express

Tailwind

Taste Buds is an independent food review platform. Where users can browse reviews of different types of food items before trying them out. We also help small restaurants to list their items on the website for marketing

More Details at [🔗 tastebuds-official.web.app/](https://tastebuds-official.web.app/)

🔗 Source [client](#) [server](#)

Major Challenges and Achieved Goals

- The authenticity of the review has been implemented through a jwt-based login/sign-in system
- Dynamic item generation, adding new food items, adding/removing comments established through Express and MongoDB

ACHIEVEMENTS

- Completed the programming hero course with 83.61% marks. Only 29% of students were able to pass the final exam. I am glad to share that I was one of them
- Over 200+ Problems were solved on freecodecamp.org. [🔗 certificate](#)

EDUCATION

- | | | |
|--|---------------|------------------|
| • BSc. in Computer Science & Engineering - GUB | | 📅 2020 - Present |
| • Hsc. in Science - DMRC - | (GPA : 4.58) | 📅 2016 - 2018 |
| • Ssc. in Science - Bright School & College - | (GPA : 5.00) | 📅 2014 - 2016 |

LANGUAGES

- Bangla native
- English Comfortable
- Hindi Comfortable

HOBBIES

- Chess
- Cooking
- Learnig new technologies

GOALS

- In the next 10 years, I want to be one of the top 1% of the web dev industry
